## Environmental Contractors

Action Environmental is a full-service environmental and civil contractor.

We specialize in providing planned environmental remediation, emergency spill response, industrial cleaning, waste management and civil construction services. We have successfully completed hundreds of turnkey environmental, civil and emergency spill response projects.

Our clients include professional, industrial, commercial, transportation and government based organizations. Our client list includes environmental engineers and consultants, geologists, civil engineers, ductile iron, steel and textile manufacturers, trucking companies, insurance providers, local municipalities as well as state and local emergency environmental agencies.

The success of our company is built on the experience of our management team, the knowledge of our dedicated employees and our commitment to health, safety and the environment.

At Action Environmental, we're building our business on timeless values: service, integrity, trust and commitment.
